

Signs & Marking Products

Markers, Signs and Tags

Pole Markers/Numbers:

Mark your poles economically, while performing routine maintenance. Accurate pole marking means fast response in an emergency and accurate tracking.

Pole Tags:

Durable pole dating tags withstand salt, sunlight and rain. Markers can identify the date of the pole and pole inspection. "Do Not Climb" tags help in accident prevention.

Transformer Markers:

Upgrade your transformer labels. Comply with ANSI and NESC regulations. Labels provide emergency information. New Shock-in-the-Box and shrubbery symbols add impact to the warning.

Substation Signs:

Be compliant! We work diligently to understand the ANSI 535 requirements for substation markings. There are certain key words, colors, punctuation and symbols that need to be followed for compliance. We have materials that offer 30 years of durability to reduce life cycle costs. In addition, we offer services to mount signs.

"The primary purpose of the ANSI Standard is to provide an effective means of communicating information concerning environmental hazards to the observer, so that injury resulting from the hazard(s) can be avoided."

Transmission Markers:

We offer a variety of signs for transmission marking, including: Aerial Crossing, Aerial Hazard, Aerial Turning, Right of Way, Patrol Signs and Mile Markers. All are ANSI 535 compliant.

Custom Markers, Signs, Tags and Labels:

Signs & Marking Products

Area Marking Products: Barricade Tapes

Manufactured for durability and resistance to the elements, the preferred co-extruded polyethylene tape for marking danger areas and special instructions. Among its many satisfied customers are professionals in the fields of law enforcement, safety, construction, painting, mining, hardware and utilities.

- Economical, disposable marking solution
- 300' and 1,000', 2, 2.5 & 3 MIL
- Variety of Mil thicknesses available for different project needs
- CAUTION, DANGER, CAUTION DO NOT ENTER, WARNING and Custom available

Material Colors

Most Mil thicknesses available in most colors.

Standard Ink Colors

Custom ink matching available.

Striped Combination (Material/Ink)

Additional color combinations available upon request.

Area Marking Products: 7 Mil Barricade Tapes

7 Mil Reinforced Barricade Tape is most desirable for those jobs where you need versatility, extra strength and durability. The tightly woven reinforced polyethylene rolls come in red danger or yellow caution in 3" x 500 ft. This heavy duty tape can be nailed, stapled or tied into placed.

- Woven reinforced polyethylene
- 500' in 7 MIL ONLY
- CAUTION, DANGER available

Area Marking Products: Locating Flags

High-quality Solid and Printed Marking Flags are ideal for aboveground marking in a variety of industries. From utility construction to line locating, hardware to forestry, landscaping and lawn care to pet containment – these flags ensure consistent communication and long-lasting visibility for your project.

- Bright inks for high visibility
- Long-lasting material colors
- Wind tear resistant for high performance at or below -40°F Flag is glued to staff – not wrapped
- Back-of-flag fold creates a larger print area
- Colored PVC staffs available for enhanced visibility
- All APWA colors provided, see page 1 for codes
- 100% MADE in the USA

2" x 3" Marking Flags

Actual flag size: 2.5"H x 3.5"W
 flag print area: 1.5"H x 1.5"W
 Minimum order: 1,000 flags (1 box)

4" x 5" Marking Flags

Actual flag size: 4"H x 5"W

Area Marking Products: Solid Flagging Tape

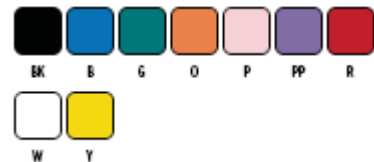

Colorful and highly visible, Solid Color Roll Flagging is the most durable, longest-lasting outdoor flagging available anywhere thanks to proprietary formulations and annealing. Added plasticizer packages yield maximum physical properties including tensile strength. (That means you get stronger product for the same price.) Roll Flagging is the most asked for flagging by industry professionals in surveying, construction, forestry, nursery, mining, geophysics, hardware and oil exploration.

- Non-toxic
- Non-flammable
- All APWA colors provided
- 100% Made in the USA

Signs & Marking Products

Area Marking Products: Detectable & Non-Detectable Underground Warning Tape

Detectable Underground Warning Tape is used for accurately locating and preventing damage to valuable underground utility installations. It has an aluminum backing to make underground assets easy to find using a non-ferrous locator. Properly installed, this tape helps avoid catastrophically inaccurate digging when locating utilities such as electrical lines, gas pipes and communication cables.

- Endures temperatures from -60°F to 250°F
- Permanently imprinted with black ink
- Durable laminate construction
- APWA colors provided

Detectable Material Colors

Standard Ink Color

Non-Detectable Underground Warning Tape prevents damage to underground utility lines during excavation. Following code parameters, bury this tape above electrical lines, gas pipes, communication cables and other utility installations. Resistant to underground elements, this heavy metal-free co-extruded polyethylene tape serves as a highly visible proximity warning device that will not turn black over time.

- Heavy metal-free
- APWA colors provided
- Long-lasting colors to protect utility lines
- Exceeds all industry specs
